RE: Notification of Completion to begin agency review of the Eastgate Regional Council of Governments
2040 Metropolitan Transportation Plan Update

Dear Mr. Moore:

Eastgate has recently completed the process of developing the 2040 Metropolitan Transportation Plan Update. The 2040 MTP Update can be viewed and/or downloaded from our website www.eastgatecog.org or upon request a copy can be obtained from the Eastgate office.

Eastgate General Policy Board resolution #013-2018 approves the 2040 MTP Update and the associated air quality analysis demonstrating that: the air quality conformity of Eastgate's 2040 MTP Update; the determination of the air quality conformity of the existing FY2018 – FY2021 TIP; all of which are components of this transportation plan's conformity findings. The 2040 MTP Update and associated air quality analysis, demonstrates that the emission burdens from the transportation plan do not exceed the mobile source emissions budgets established in the Ohio EPA State Implementation Plan. The sum of the modeled and non-modeled areas for both volatile organic compounds (VOCs) and oxides of nitrogen (NOx), are less than the established Ohio SIP budgets and meet the transportation conformity test for Mahoning, Trumbull and Columbiana Counties.

If you have any questions regarding this notification, please call 234-254-1502 or e-mail me at your earliest convenience: ksympson@eastgatecog.org.

Sincerely,
Eastgate Regional
Council of Governments

Ken Sympson
